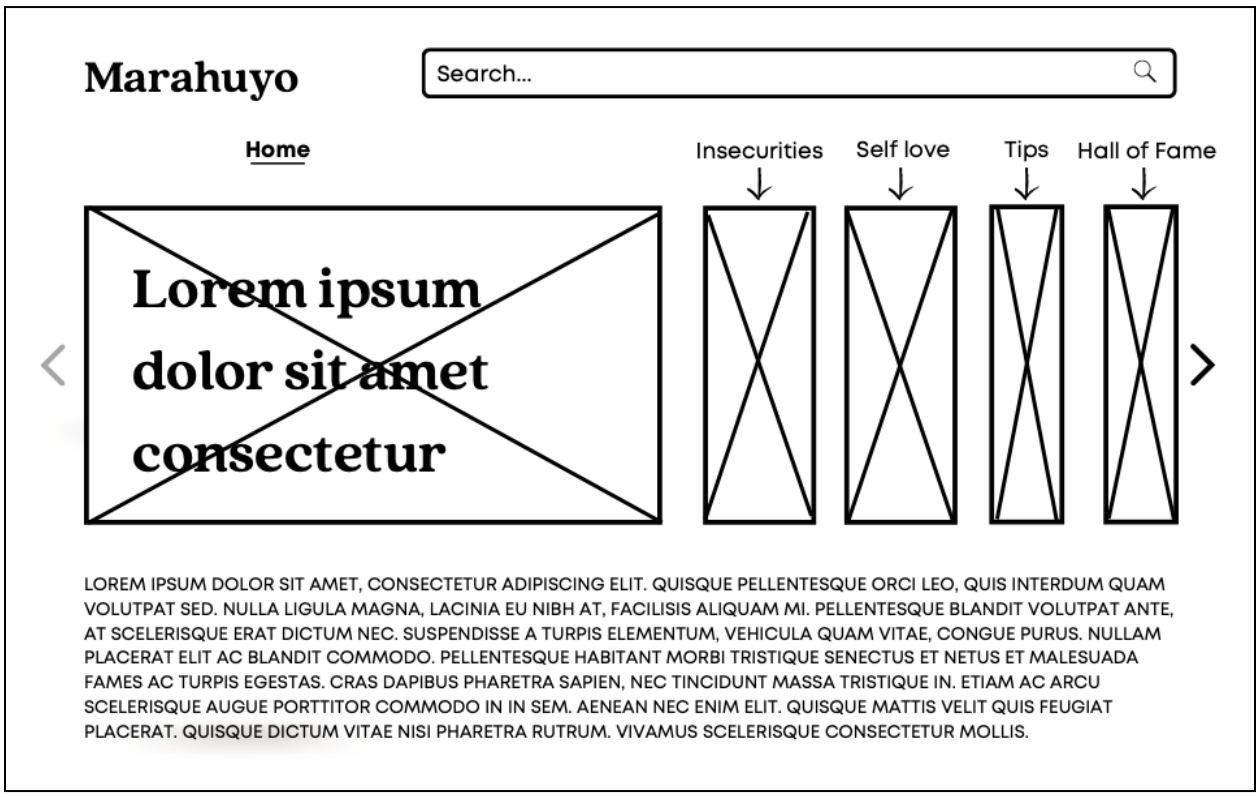
Topic: *Insecurities And How to Deal With Them*
Title: *Marahuyo*
Description: This is a project proposal for CS3 that will discuss, in an infographics format, the different physical features that many people are ashamed of having. As the use of social media becomes a huge part of our modern day culture, people tend to compare themselves to others and develop insecurities due to their physical appearance. Our aim is to help people accept and love these features by promoting them in a positive way that is easy and accessible for everyone regardless of gender, race, age, and religion. Each webpage will showcase subjects and information related to the topic.

The webpages will be comprised of the following:

1. Homepage - The landing page contains a brief overview of the website and its purpose. It contains the logo, search bar, media, and links to the other pages.



2. Insecurities - This page will list the most common insecurities and their facts. We aim to present them in a way that will help people accept them positively.
